22nd October, 2016

Dear all Parents of P.6,

**Focus on the characteristics of students, cater for their individual needs and
bring them up with care**

It is no doubt that you all want to find a suitable secondary school for your children in the coming academic year. Secondary schooling is important as it is the period when the teenagers are growing up, acquiring knowledge and shaping their personalities. If your children can study in a suitable secondary school to cater for their characteristics and learning ability, you will be at ease.

As a Catholic school, our school sticks to the principle of nurturing students of all abilities. The principle of our school is "a sense of propriety, justice, honesty and honor" and accompanied by the motto of our school founder, Father Vincent Lebbe, "**Total Sacrifice, True Devotion, Constant Happiness**", we try our utmost to nurture our students, let them identify their strengths to make progress in terms of knowledge, attitude and abilities. In this way, your children will be able to value themselves, pay filial piety to you and be helpful to the others.

Enclosed please find a copy of our school application form and the notes about the application in the academic year of 2017-2018

I look forward to hearing that your children will be promoted to their ideal secondary school.

Yours faithfully,

Leung Fung Yee

Principal of Catholic Ming Yuen Secondary School
